RENEWED PETITION UNDER 37 CFR 1.47 (A)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Responsive to the decision mailed September 7, 2007, dismissing Applicant's petition, Applicant hereby renews its petition (the contents of which are incorporated herein by reference and attached hereto as *Exhibit A*) and respectfully requests reconsideration.

As grounds for reconsideration, Applicant first submits that the Declaration originally submitted fully complies with the requirements of Rule 1.47(a). As indicated in the decision, "[a] petition under 37 CFR § 1.47(a) must be accompanied by . . . an oath or declaration by each available joint inventor . . ." That requirement has been met here, since the Declaration is executed by the available inventors. Accordingly, no basis for denying the petition exists.

Secondly, Applicant submits that the Declaration has not been "altered." Rather, as observed in the decision, "Mr. Molloy added a second mailing address." Nothing in the rules proscribes such an addition, which is not an amendment, alteration, or change to any wording present. Indeed, if merely writing on the Declaration is considered an "amendment, alteration, or change" to the wording, then the inventor by applying his signature to the

Declaration impermissibly “amends, alters, or changes” it.

Thirdly, Applicant notes that an Application Data Sheet (ADS) setting forth inventor Anthony Molloy’s correct address has previously been filed (see *Exhibit B*). In such case, the Declaration need not provide the mailing address of the inventor. See 37 CFR 1.76(c) (“*Unless such information is supplied on an application data sheet* in accordance with § 1.76, the oath or declaration must also identify . . . The mailing address, and the residence if an inventor lives at a location which is different from where the inventor customarily receives mail, of each inventor . . .”) (emphasis added). Therefore, the inclusion or lack of a mailing address would not be a proper basis for refusing to accept the Declaration.

Despite Applicant’s firm belief that the original Declaration submitted is perfectly acceptable, a substitute Declaration is nevertheless attached hereto as *Exhibit C*.

Having complied with all of the requirements of 37 CFR 1.47(a) and 35 USC 116 2d paragraph, it is hereby respectfully requested that the renewed petition be accepted and that the application be approved for examination. In the event any fee is due, please debit it from Deposit Account 11-0978.

Respectfully submitted,

Sir:

For purposes of the contemporaneously filed Petition Under 37 CFR 1.47(a) and 35 USC Section 116, second paragraph, the undersigned does hereby aver and state as follows:

1. PCT patent application PCT/GB2005/000430 covering the above-referenced invention was filed on February 8, 2005, designating the United States and claiming priority to U.S. Provisional Patent Application Ser. No. 60/548,458, filed February 27, 2004.

2. On or about 26 June 2007, I forwarded a Declaration required for entering the national stage in the United States along with the above-referenced PCT application to co-inventor Matthew Molloy by sending it to his last known address at 13 Hawthorn Grove, Wallsend, Tyne and Wear, United Kingdom, NE28 8HD

3. Despite having executed the Assignment document attached as *Exhibit A* assigning his rights in the inventions disclosed in the above-referenced PCT application to CleverClear Ltd. and requiring his full cooperation in this matter, Matthew Molloy has

refused to return and sign the Declaration. Evidence of this refusal is in the form of a letter dated 9 July 2007 from John Nicholson of Mincoffs Solicitors, LLP, representing inventor Matthew "Malloy" (*sic* Molloy), and attached as *Exhibit B*. In the letter, Mr. Nicholson acknowledges that Matthew Molloy has "received directly documents relating to an application for a US Patent which your client states requires execution," but states that "our client" (referring to Matthew Molloy) "is not prepared to execute that document until the other matters outstanding have been resolved."

4. To date, and despite the above-described diligent efforts, I have not yet received the executed Declaration from Matthew Molloy.

5. The undersigned hereby makes oath or declaration on behalf of Matthew Molloy stating that to the best of his knowledge and belief, the inventors listed in the accompanying Declaration are original, first and joint inventors of the subject matter which is claimed and for which a patent is sought on the invention; that he has reviewed and understands the contents of the above-identified application or been given the opportunity to do so; that he acknowledges the duty to disclose information which is material to the examination of this application in accordance with title 37 CFR § 1.56(a); and that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
